Supreme Progen

In this EDH deck, I will show how doing Regen-itus works using *Regenerate* and a few other key protection cards. The main goal of this deck is to seek out as much mana as possible so you can get *Progenitus* out as fast as possible. Let me know if you have any suggestions for me in the comments!

Progenitus

(10) WWUUBBRRGG

Legendary Creature -- Hydra Avatar

Protection from everything

If Progenitus would be put into a graveyard from anywhere, reveal Progenitus and shuffle it into its owner's library instead.

The Soul of the World has returned.

Mana Balance Issue

[MageRage](#)

Your deck is looking very solid, but I can guess you are having some mana issues. Try putting some mana ramp like [Rampant Growth](#) would really help you out. If you are looking for more versatile ramp, look at [Expedition Map](#). That will allow you to get any land with no colored mana! Reply to this if you have any other problems.

Humans

Resilient, small, and great in numbers. Humans are capable of short-term swarming as well as long-term defending. It's usually hard to count them out of any fight before it's completely over.

Approximately 1,693 cards

Search

Dragons

Huge, flying, full of fire. These monstrous creatures are big in mana cost, but yield large amounts of damage in the air. This also gives them a bit of evasion, however slow they may be.

Approximately 111 cards
